

OLG's Garden Fall 2017

~ AnnMarie Silveira

Our Garden is coming back to life! Every student left their mark last week as each class planted their seeds. The week before, the garden club amended the raised bed in preparation. We are experimenting with gardening by using cinderblocks as planters and utilizing the green house to start seeding for transfer. The students are so excited to join in the garden fun!

We planted: PreK-beets, Kinder-broccoli, 1st-peas, 2nd-kale (Mrs. Symonds makes the best kale chips!), 3rd-dill, 4th-snap bush beans, 5th-carrots, 6th-spinach, 7th-cabbage, 8th -radish

Our New Garden Club

The purpose of the Garden Club is to cultivate the students' love of learning in an outdoor, hands on environment. This club is open to K-8th graders. The students will learn to take on leadership roles, while respecting all the members' thoughts and ideas. We will always learn from each other. The planned activities will foster incidental learning as the students explore and create!

Our 1st meeting, September 27, 2017

It's not too late for your child to be a founding member this year! For more information contact: AnnMarie Silveira at annmarie.silveira@outlook.com.
